

# Orange County Transitional Housing Goals & Outcomes

4/1/2021 - 3/31/2022

Transitional Housing projects in the Orange County Continuum of Care (CoC) met **3 out of 7** thresholds as a project type.

# Goal 1 - Prioritize Clients Experiencing Literal Homelessness

**Orange County CoC Goal:** 100% of head of household enroll in Transitional Housing projects from homeless situations.

**Why?** Enrolling clients from literal homeless situations is important because clients experiencing literal homelessness are among the most vulnerable of all Orange County residents experiencing homelessness.

## Enrollments by Non-Homeless Entry Category

### Entry Categories

- Family/Friends
- Institutional Setting
- Temporary Situation
- Permanent Housing Situation

# Goal 2 - Decrease Length of Stay in Temporary Shelter & Outreach

**Orange County CoC Goal:** Transitional Housing project enrollments are no longer than 180 days from project entry to project exit.

**Why?** Clients in Transitional Housing projects are experiencing literal, unsheltered homelessness, which makes this population particularly vulnerable. The ultimate goal of Transitional Housing projects is to move people to sheltered or permanent housing situations.

## Length of Days to Permanent Housing Placement

## Goal 5 - Ensure Projects Are Being Fully Utilized

**Orange County CoC Goal:** Transitional Housing projects have a unit utilization score of at least 80%.

**Why?** Projects should be close to full occupancy to ensure as many clients as possible are stabilized in housing situation.

### Projects by Utilization Category

## Goal 6 - Help Adults Increase Their Income while Enrolled in the Project

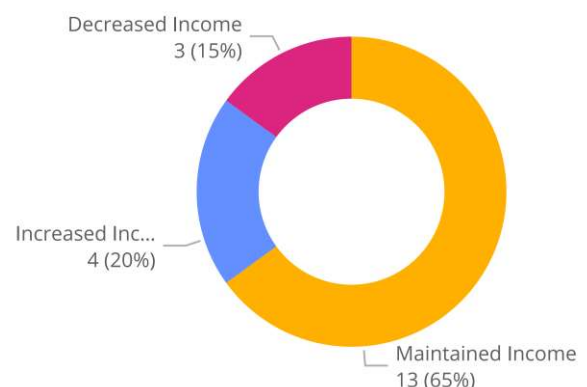

**Orange County CoC Goal:** At least 12% of adult clients who were enrolled in Transitional Housing project during the reporting period have increased their income while being enrolled in the project.

**Why?** Income is critical to maintaining most permanent housing situations.

Threshold: <=10%

Project Type Score	Chronically Homeless	Veterans	Households with Children	Households without Children	Households with only Children
9%	17%	0%	10%	7%	0%

Efforts should be made to ensure that clients who receive homelessness prevention services are stabilized in their housing and can successfully maintain the housing at the end of the period of service provision. Repeat interventions are time consuming for both clients and service providers and can be mentally taxing for clients.
