Data Completeness by User
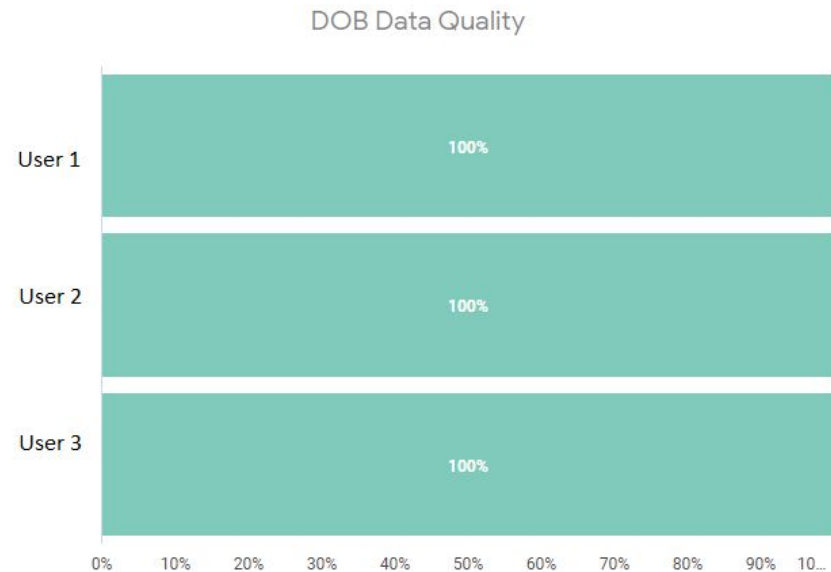

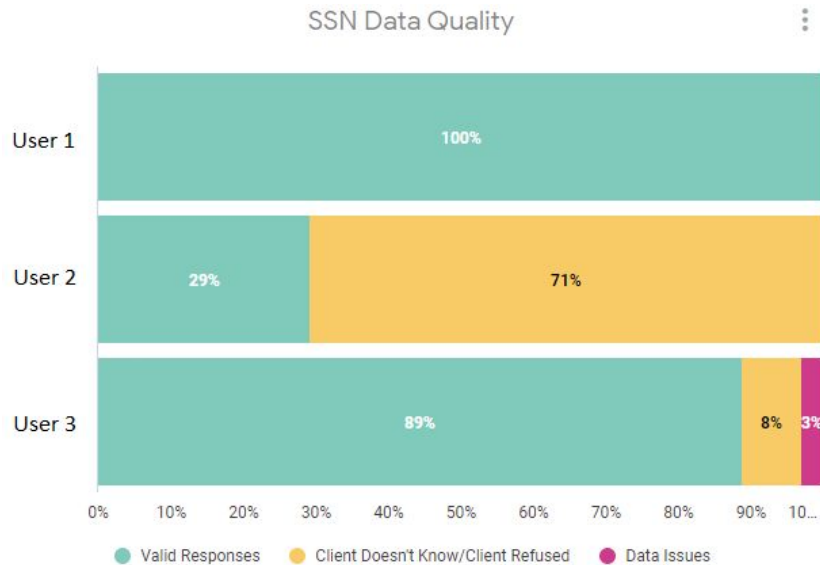

Discussion

- What reports would you like to have access to?

- What would improve HMIS for users at your agency?

- What features would encourage participation?

- How can 211OC better engage your agency?

- What HMIS-related concepts do your users struggle with?

- What ideas do you have that we haven't discussed?

Report Overview

- Reporting Period: 1/1/22 - 12/31/22

- Performance of individual Prevention projects

- Overall performance of OC Prevention projects

Report Highlights

Average length of time in Prevention projects continues to rise, but this is mostly due to a few projects with high averages.

Goal 3 – Decrease Length of Time in Prevention Projects (<=60 days)
Report Highlights

All Prevention projects are meeting the threshold for the Maintained or Increased Income measures, and have consistently meet them over the past couple years.

Goal 6 – Help Adults Maintain or Increase Their Income while Enrolled in the Project (>=50%)

- September 2021: 94%
- March 2022: 63%
- September 2022: 64%
- March 2023: 69%

Goal 7 – Help Adults Maintain or Increase Their Income as of Project Exit (>=45%)

- September 2021: 94%
- March 2022: 75%
- September 2022: 73%
- March 2023: 61%

Report Highlights

Clients in Prevention projects consistently exit to permanent housing. Half of the clients not exiting to permanent housing are exiting to unknown locations.

Goal 8 - Help Clients Exit to Successful Housing Situations (>=90%)

	September 2021	March 2022	September 2022	March 2023
	97%	97%	96%	92%

Report Highlights

93% of clients exiting Prevention to permanent housing are not returning to a homeless project within 2 years. Half of clients that do enter the homeless system are doing so within the first 6 months of exiting Prevention.

Goal 10 – Ensure Clients Do Not Enter Homeless System after being Housed (<=15%)

- 100%
- 50%
- 14% — September 2021
- 6% — March 2022
- 7% — September 2022
- 7% — March 2023
