

# Longitudinal Systems Analysis (LSA) FY 2022

Every year, HUD submits an Annual Homeless Assessment Report (AHAR) to the US Congress. The AHAR is a national-level report that provides information about homeless service providers, people and households experiencing homelessness, and various characteristics of that population. It informs strategic planning for federal, state, and local initiatives designed to prevent and end homelessness. The LSA report is produced from each CoC's Homeless Management Information System (HMIS), and is compiled to create the AHAR report to Congress. The LSA includes Emergency Shelter, Safe Haven, Transitional Housing, Rapid Re-Housing, Permanent Supportive Housing, and Other Permanent Housing projects that are participating in HMIS during the reporting period, which is October 1st through September 30th. All data is for Funding Year (FY) 2022, which is 10/01/21 - 09/30/22, unless otherwise noted.

## Days Homeless by Pathways

Percent and number of households that used each pathway and average cumulative days that households in each pathway group were homeless.

## Days Homeless Trend by Household Types

For each reporting year, the average cumulative, unduplicated number of days that households were served in ES, SH, or TH projects; and days in RRH or PSH prior to move-in.

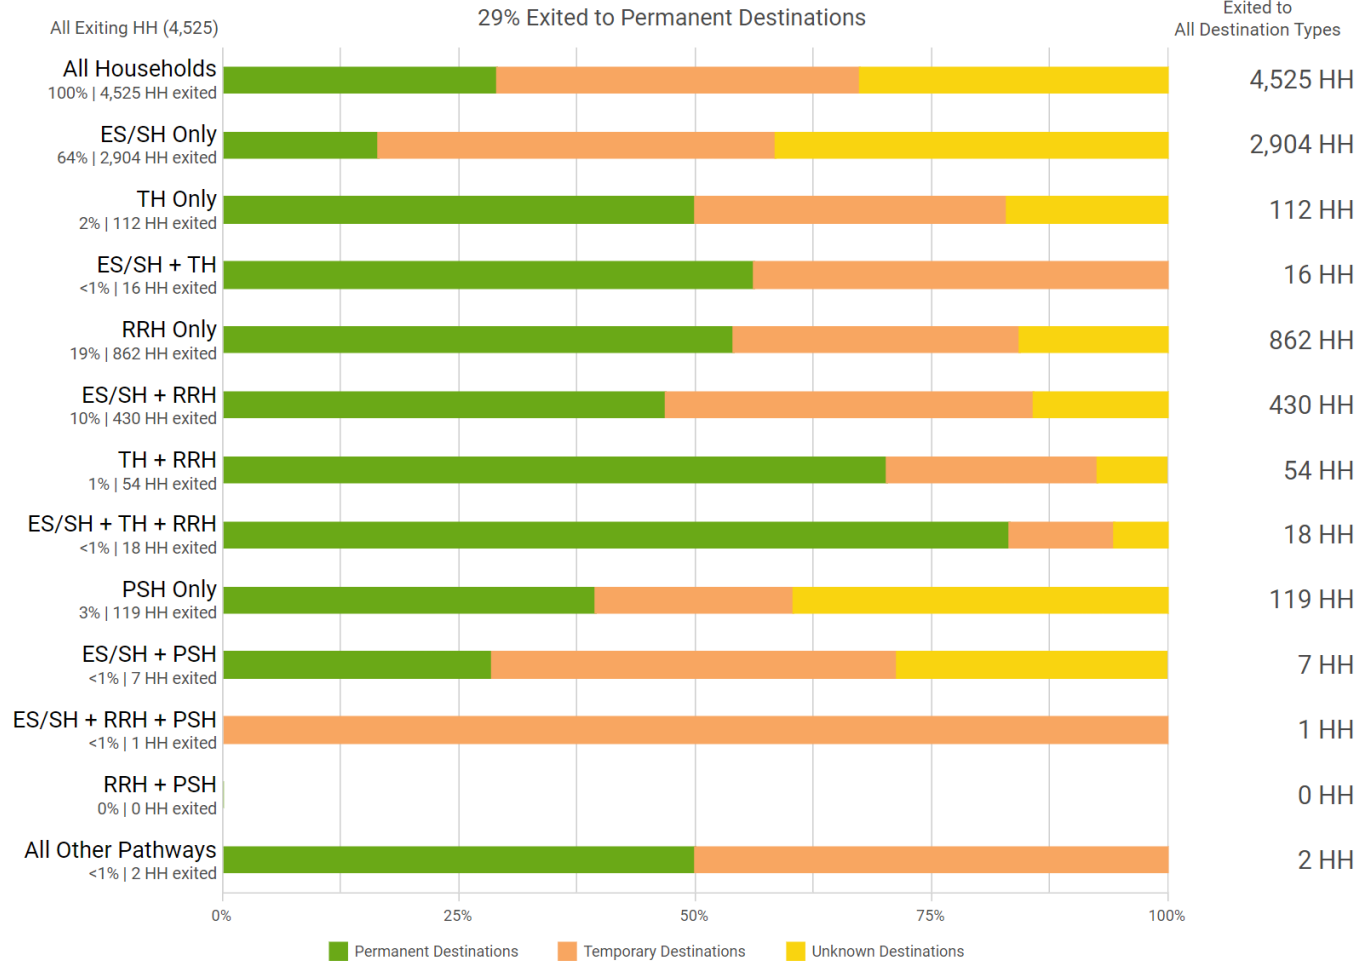

**Days Homeless**  
 Emergency Shelter/Safe haven (ES/SH)  
 Transitional Housing (TH)  
 RRH/PSH Prior to Housing Move-In

**Days Housed**  
 Rapid Re-Housing (RRH)

**Show Additional Data**  
 Self-reported days homeless

## Exits by Pathways

Percent and number of households that used each pathway, and percent and number of households in each pathway group that exited to permanent, temporary and unknown destinations.

## Exits to Permanent Destinations

Percent that exited to permanent destinations within each of the past four years.

## Exits to Permanent Destinations Trend

Number of households that exited from the homeless system and percent that exited to permanent destinations within each of the past four years.

# Return to Homelessness

The percent of households returned includes data from 12 months prior (10/01/20 - 09/30/21) to the current reporting period of exiting the homeless system to permanent destinations.

## Return to Homeless by Pathways

6% Returned within 6 months

Returned after exit to Permanent Destinations

## Return to Homeless System

Percent of households that returned to the homeless system within six months of exiting to a permanent destination within each of the past four years. For the current report period, the universe for the chart is households that exited within the first six months of the report period.

## Return by Destination Type

The percent of households that returned within six months of exiting the homeless system to permanent, temporary, or unknown destinations.

## Demographics

### Age Tier

### Homeless Status

### DV Status

### Veteran Status

### Household Composition

### System Engagement

## System Performance Map

Households use different combinations of project types during the time they are served in the homeless system. These project type combinations are referred to as pathways. Each pathway has different average cumulative days homeless, exits to permanent housing and returns to the homeless system.
