Permanent Destination Exits by Project Types

Emergency Shelter is the least effective project type at exiting clients to permanent housing. Transitioning these clients to other project types may result in more clients being placed in permanent housing.

CoC Dashboard

The dashboard contains information on the clients who were active in any project type in HMIS or contacted 211OC for information and referral.

The Report Cards look at the following:

- Data Accuracy
- Data Timeliness

The report card will have a slicer which will allow the agencies to review their data as a whole. The project level slicer will still be available.

The UDE Data Completeness Dashboard /Details as well as the Timeliness Dashboard/Details reports also include the Agency and Project Name filters.

Updated Bed Reservation Service

- The “Needs Bed Reservation Assistance” Service for ICES and FCES was updated in HMIS
 - The service is now classified as a “**Single Event**” service item.
 - The service can no longer be provided using the attendance section in HMIS
- Single Event Service Items can be provided by editing the client’s CES enrollment and clicking “Provide Services”
- A new Bed Reservation Service needs to be added **every week** to keep the client active for opportunities
- For more information, please refer to our [Adding Services](#) and [Adding Households to Bed Reservation Queue](#) KB articles

The screenshot shows a web application interface for the 'PROGRAM: INDIVIDUAL COORDINATED ENTRY SYSTEM'. The top navigation bar includes 'Enrollment', 'History', 'Provide Services' (which is the active tab), 'Events', 'Assessments', 'Notes', and 'Files'. There is an 'Exit' button in the top right corner. Below the navigation bar, the page title is 'Services'. A section titled 'Bed Reservation Wait List' is visible, with a 'Case Management' dropdown menu. The main content area is titled 'Needs Bed Reservation Assistance' and contains a form with the following fields: 'Event Date' set to '05/01/2023' with a calendar icon, and a 'Service Note' field with a rich text editor toolbar (containing Bold, Italic, Bulleted List, and Numbered List icons).
