

Longitudinal Systems Analysis (LSA) FY 2025

Every year, HUD submits an Annual Homeless Assessment Report (AHAR) to the US Congress. The AHAR is a national-level report that provides information about homeless service providers, people and households experiencing homelessness, and various characteristics of that population. It informs strategic planning for federal, state, and local initiatives designed to prevent and end homelessness. The LSA report is produced from each CoC's Homeless Management Information System (HMIS), and is compiled to create the AHAR report to Congress. The LSA includes Emergency Shelter, Safe Haven, Transitional Housing, Rapid Re-Housing, Permanent Supportive Housing, and Other Permanent Housing projects that are participating in HMIS during the reporting period, which is October 1st through September 30th. All data is for Funding Year (FY) 2025, which is 10/01/24 - 09/30/25, unless otherwise noted.

Days Homeless by Population Group

Percent and number of households in population group and average cumulative days homeless for each population group.

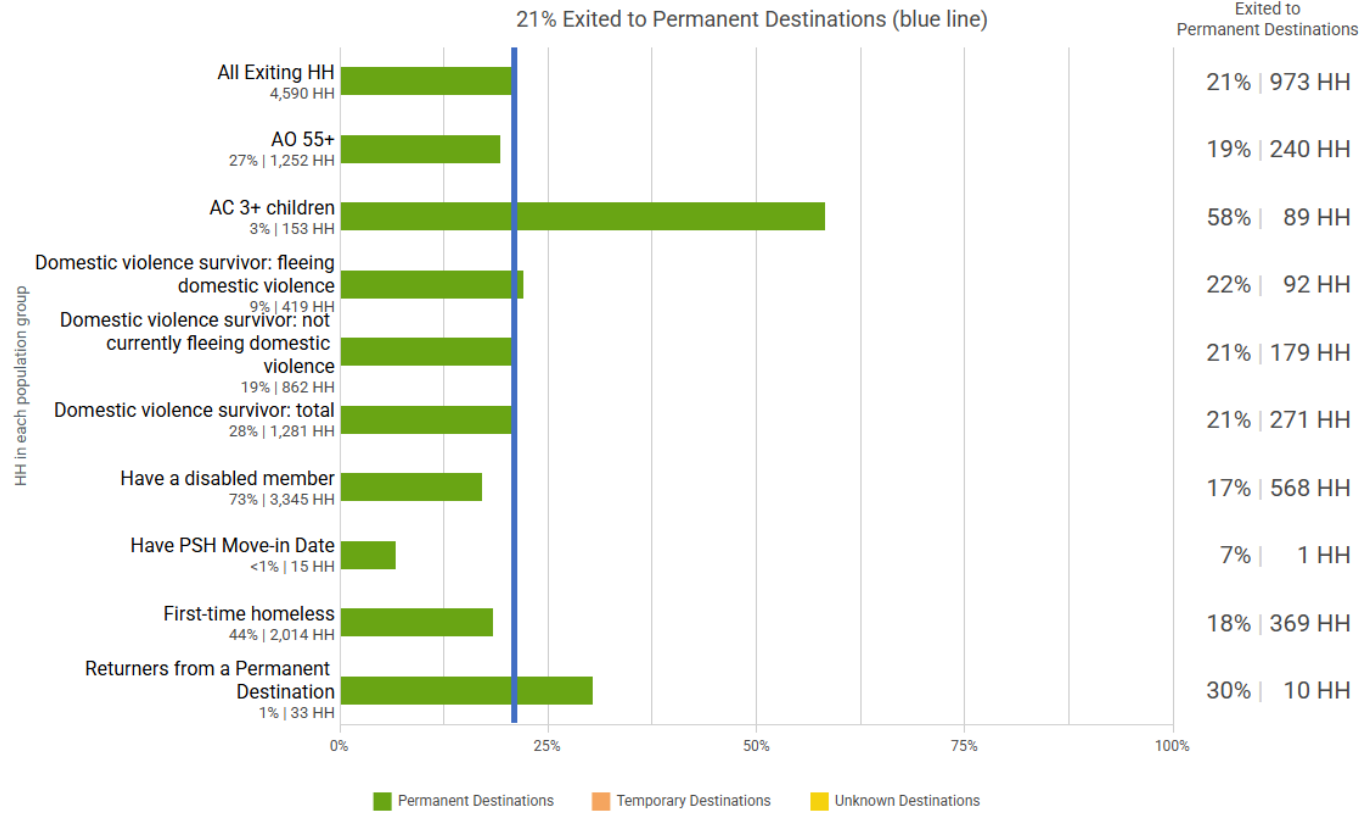

Days Homeless Trend by Household Types

For each reporting year, the average cumulative, unduplicated number of days that households were served in ES, SH, or TH projects; and days in RRH or PSH prior to move-in.

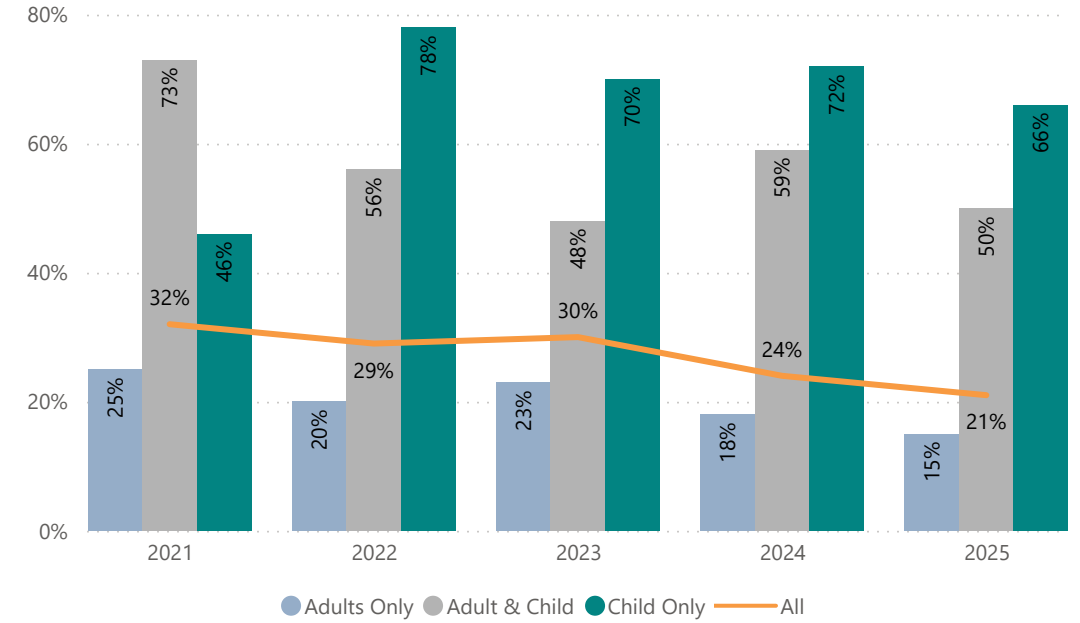

Exits by Population Group

Percent and number of households in each population group that exited to permanent destinations.

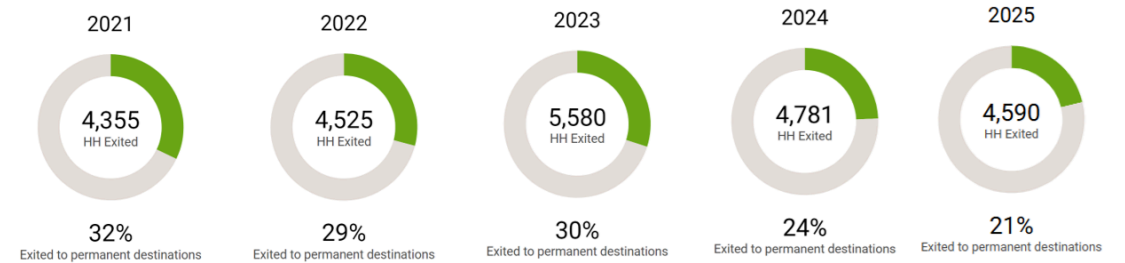

Exits to Permanent Destinations

Percent that exited to permanent destinations within each of the past five years.

Exits to Permanent Destinations Trend

Number of households that exited from the homeless system and percent that exited to permanent destinations within each of the past five years.

Return to Homelessness

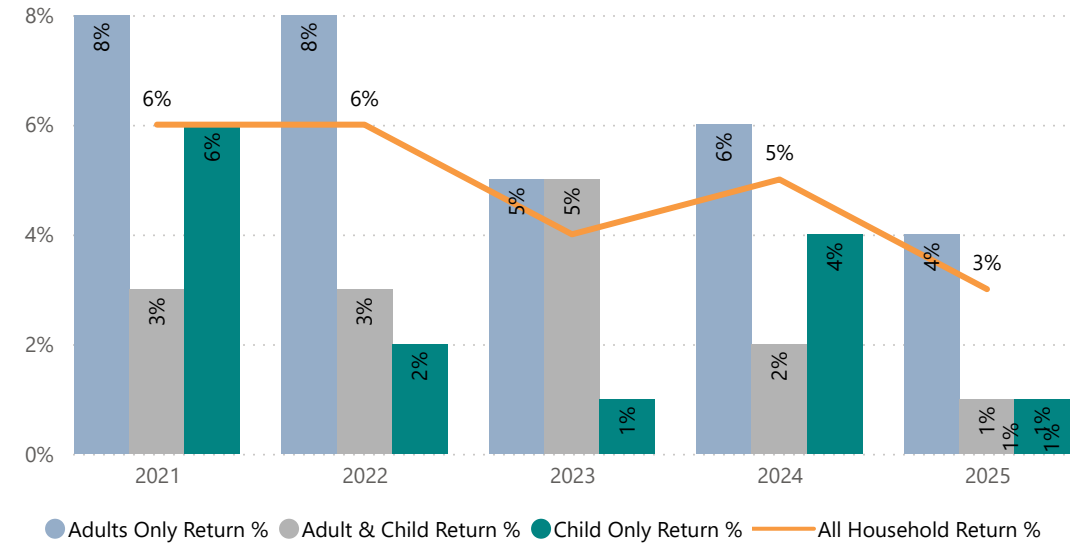

The percent of households returned includes data from 12 months prior (10/01/23 - 09/30/24) to the current reporting period of exiting the homeless system.

Return to Homeless by Population Group

Return to Homeless System

Percent of households that returned to the homeless system within 12 months of exiting to a permanent destination within each of the past five years.

Return by Destination Type

The percent of households that returned within 12 months of exiting the homeless system to permanent, temporary, or unknown destinations.

System Performance Map

Households use different combinations of project types during the time they are served in the homeless system. These project type combinations are referred to as pathways. Each pathway has different average cumulative days homeless, exits to permanent housing and returns to the homeless system.
